

### BECOME A MEMBER OF THE BITS COMMUNITY

To really take Smart Cycling and the use of cycling data to the next level, we are convinced that it is crucial to connect existing stakeholders and benefit from each other's experiences, products and data. Therefore, we would like to invite you to join the BITS community – an active network of policymakers, businesses and anybody who is interested in cycling ITS and/or cycling data. The BITS community will be closely involved in the project and will be invited to BITS events, where they can meet other members of the community.
